

NASP 13.1 Security Manager Basic Course

Preamble

Focus on security within aviation has increased over the years, and security is a concern for everyone in the industry, affecting virtually all areas of operation. Whether you work with passengers, cargo, maintenance, or at a security checkpoint, you have a role in keeping the industry safe.

Compliance

The course content complies with the Danish National Aviation Safety Program (NASP) training section 13.1. for basic training targeted at Security Managers, their Deputies and other personnel with security responsibility (ref NASP 11.2.5).

Who Should Attend?

The Danish Civil Aviation and Railway Authority require all Security Managers, Deputies and Security Responsible persons to be approved. This entry-level course is part of the mandatory requirements stated in order to obtain such an approval.

Prerequisites

None.

Objective

This course will raise your security awareness and provide you with the specific knowledge needed in order to participate in the mandatory Security Seminar run by the Danish Civil Aviation and Railway Authority.

Course Content

This course introduces you to the security measures and regulations you need to know in order to work responsibly in the industry. It also provides examples of practices you can apply in your workplace to identify and prevent potential security threats.

Key topics include:

- Your role as a future security professional in the overall aviation security framework;
- The types of threats to consider in a security risk assessment;
- Steps to enforce security in your work areas;
- The role of human factors in maintaining security;
- Situation-based communication;
- Past and current threats to the aviation industry;
- Aviation security regulations and the national and international organizations behind them;
- Airport access control for people and vehicles;
- Passenger, baggage, cargo, mail, and catering security basics;
- Common airport and in-flight security measures for responding to threats.
