

# Part 145 Management System Training

## Preamble

The requirement for maintenance organisations to have a management system including handling of safety related activities (SMS), has now been mandated by EASA. The final date for which compliance must be shown is 02 December 2024.

## Compliance

EASA 145.A.200 and 145.A.205 calls out for the establishment of a management system including the elements of reporting and management of safety. The associated AMC lists ICAO Appendix 2 to Annex 19 as the standard for this.

## Who should attend?

This training is intended for managers and key personnel working, or going to be working, with the design, implementation, and operation of SMS, within a Part 145 environment.

As similar requirements will apply for Part 21G Production and Part 21J Design, managers from these organisations will also benefit from this training.

## Prerequisites

Basic knowledge about management principles.

## Objective

After attending this course the student will:

- Have a good understanding of the requirements for setting up a management system with all the required elements.
- Have knowledge about the content of ICAO Annex 19 and the ICAO document 9859
- Have the knowledge required to start setting up a safety management system.
- Be able to perform safety analysis using the Bow-tie model.
- Be able to perform a risk evaluation.

## Course Content

- Review of Part 145.A.200 and 145.A.205 and AMC.
- Review of ICAO document 9859.
- Introduction to Bow-tie analysis model.
- Examples of risk evaluation matrixes.
- Brief reminder about the reporting requirements of (EU)376/2014
- Knowledge sharing about SMS tips, tricks, and traps.

## Other Information

**Duration:** 1 day  
**Schedule:** See <https://aeroteam.dk>  
**Price:** 2,995, - DKK / person  
399, - € / person  
All prices are excluding VAT.  
Pre-payment applies.  
Minimum 5 delegates

### Details:

Refreshments are provided during the course.  
Course presentation printouts are provided.  
Certificate upon completion.

### Course Registration:

Sign up at <https://aeroteam.dk>

### Contact:

We can also deliver the course on-site. Please send us an inquiry for a specific quote.

For further details and information, please contact [INFO@aeroteam.dk](mailto:INFO@aeroteam.dk)

### Other Relevant Training:

We are also providing a basic SMS knowledge training course for technical and administrative staff working in a maintenance environment. This course is intended to give a brief and simple overview of SMS and the intention of the regulation, in order to provide a good basic knowledge of SMS throughout your organization. For further interest in this training course, please contact [INFO@aeroteam.dk](mailto:INFO@aeroteam.dk)
